

Amendments to the Specification:

Please amend the paragraph beginning at page 2, line 1 as follows:

U.S. Pat. Nos. 5,648,019; 5,677,359; and ~~5,648,057~~ 5,684,057 all teach the use of three component polyol blends for use in insulating rigid foams. These blends require two different types of amine-initiated polyols (i.e., an aromatic amine-initiated polyol and an aliphatic amine-initiated polyol) and an aromatic polyester polyol. Sucrose-based polyether polyols are among the materials listed as optional components.
